

QImageConsumer

```
classDiagram
    QImageIOFrameGrabber --> QImageConsumer
    QMoviePrivate --> QImageConsumer
```

The diagram illustrates a class hierarchy. At the top is the 'QImageConsumer' class. Below it, two other classes, 'QImageIOFrameGrabber' and 'QMoviePrivate', are shown. A horizontal line connects the two bottom classes, with a vertical line extending upwards from the center of this line to the bottom of the 'QImageConsumer' box. This vertical line is accompanied by three dots on its right side, indicating that these two classes inherit from the 'QImageConsumer' class.

QImageIOFrameGrabber
