

QTextFormatter

QTextFormatter

QTextFormatterBreakInWords

```
classDiagram
    class QTextFormatter
    class QTextFormatterBreakInWords
    QTextFormatterBreakInWords --|> QTextFormatter
```

The diagram illustrates a class hierarchy. At the top, there are two boxes, both labeled 'QTextFormatter'. Below them, centered, is a box labeled 'QTextFormatterBreakInWords'. A horizontal line connects the bottom of the two 'QTextFormatter' boxes. From the center of this line, a vertical line descends to the top of the 'QTextFormatterBreakInWords' box. From the top-left corner of the 'QTextFormatterBreakInWords' box, a line extends left and then turns upwards as an arrow pointing to the bottom-left corner of the left 'QTextFormatter' box. Similarly, from the top-right corner of the 'QTextFormatterBreakInWords' box, a line extends right and then turns upwards as an arrow pointing to the bottom-right corner of the right 'QTextFormatter' box.
